

XEVIER TURRUBIARTES

xevier.dev@gmail.com • xevier.dev • linkedin.com/in/xevierturrubiarates

Senior Full-Stack and AI Developer with 6 years of experience building SaaS products and AI platforms using TypeScript, React, Node.js, PostgreSQL, and modern LLM technologies. Experienced in software architecture, RAG and multi-agent systems, and leading small engineering teams from design through production.

PROFESSIONAL EXPERIENCE

StealthX

Charlotte - Remote

AI Project Lead

January 2026 – Present

- Led a team of 2–3 engineers delivering enterprise AI platforms for ~10 clients, overseeing architecture, code reviews, sprint planning, and deployments.
- Built an AI intent-detection system integrated with RAG and HubSpot CRM to identify and qualify sales leads, increasing lead-to-demo conversion by 35%.
- Architected RAG and multi-agent systems using Claude, OpenAI, LangChain, LangGraph, ChromaDB, and pgvector, reducing average response times by 40%.
- Built document ingestion and analytics pipelines with Unstructured.io, DuckDB, and S3 Parquet, enabling AI-generated SQL analysis without impacting production databases.

Werq AI

Remote

Lead Front-end Developer

March 2025 – December 2025

- Owned front-end initiatives with React, TypeScript, Tailwind CSS, and Framer Motion, designing responsive interfaces and components while reducing initial load time by 25%.
- Contributed to backend development with NestJS to ensure technical consistency and integration across application layers.

Advance Music Technologies LLC / Sonicbids LLC

New York - Remote

Lead Full-Stack Developer

August 2024 – February 2025

- Led development of a full-stack application with React, Redux, TypeScript, Node.js, Express, and PostgreSQL, delivering the product independently from concept to MVP.
- Designed REST APIs and Redux Toolkit state architecture, reducing response times by 25% and improving overall application performance by 30%.

Earlier Software Engineering Experience

2021–2024

Artificial Compute · Rodeo Logistics · DevWorks

Front-End Developer · Full-Stack Developer · Full-Stack Developer / Project Lead

- Built React, Next.js, TypeScript, Node.js, GraphQL, and Redux applications across SaaS and logistics products, while also leading development projects and small engineering teams.

EDUCATION

Thinkful - Software Engineering Immersion

Austin, TX

University of Houston - Downtown

Houston, TX

Bachelor of Business Administration - BBA

SKILLS

Frontend: React, Next.js, TypeScript, Redux, React Query, Tailwind, Figma

Architecture & Backend: System Design, API Design, Node.js, NestJS, Express, PostgreSQL, REST API, GraphQL

AI & Data: OpenAI, Claude, LangChain, LangGraph, RAG, LLM Orchestration, Multi-Agent Systems, Embeddings, Vector Search, ChromaDB, pgvector, DuckDB

Testing: Playwright, Cypress, Vitest, Jest

DevOps: AWS, Docker, CircleCI, Vercel, Fly.io

Tools: Bash, Git, JIRA, Postman
